Additional information

Founded in 1919 the Financial University under the Government of the Russian Federation has evolved from Moscow Finance Institute into a major research and education center. It is one of the oldest Russian higher education institutions where financial experts, lawyers, economists, IT experts, mathematicians, sociologists, and political scientists are being trained. Annually about 50 000 students study at the university. Following the concept of the life-long learning the Financial University offers a wide range of educational programs that meet various requirements set in the field of education and professional development.

Supplement certification

Date of issue:

20.09.2021

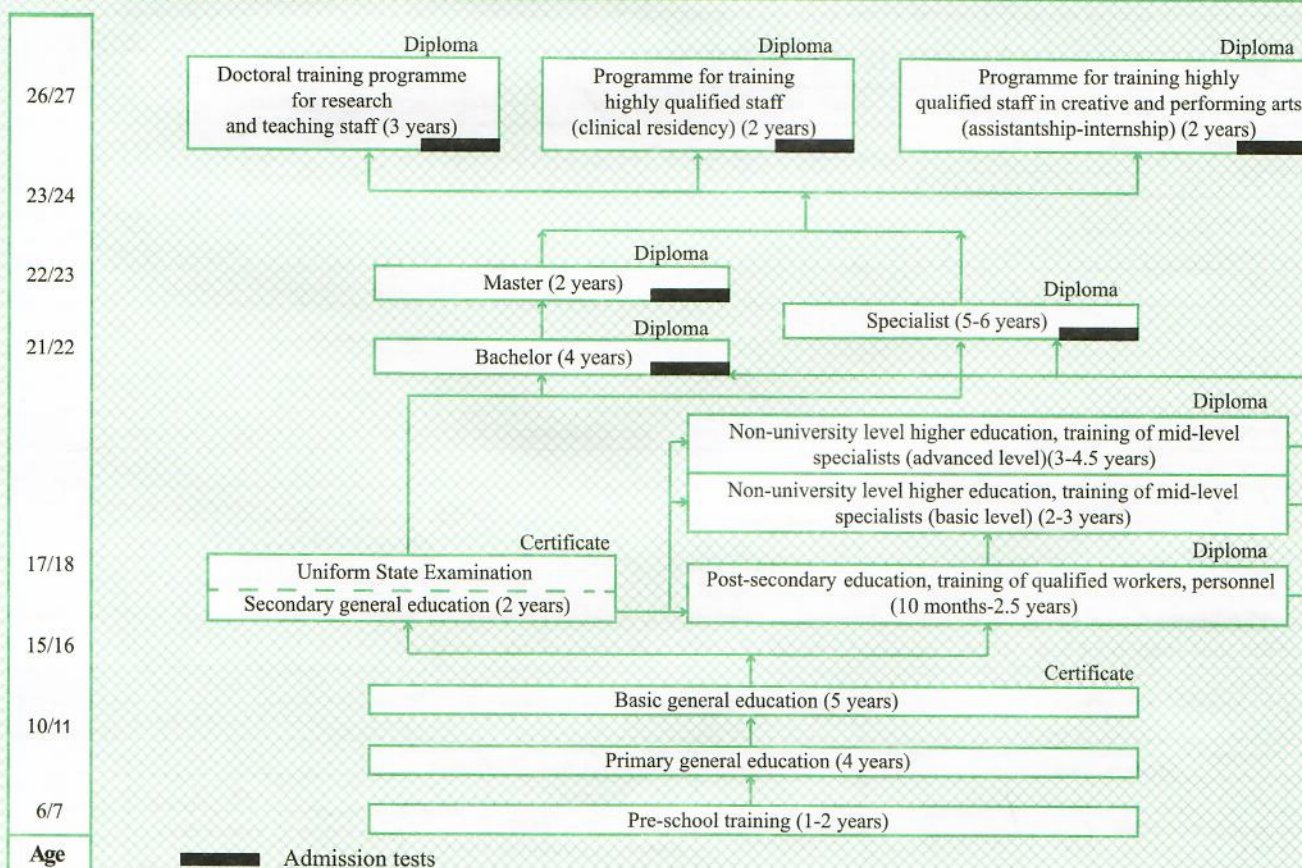

Vice-Rector:

Head of International Relations Department:

Information on the national education system

Completion of state-accredited educational programme of higher education of a relevant level at an educational institution of higher education entitles a person to practice the profession and is a prerequisite for taking up certain positions requiring, according to the laws of the Russian Federation, a certain level of professional education and/or qualification, unless otherwise specified by federal laws.

The qualifications (degrees) of Bachelor, Specialist, Master, and Researcher/Teacher-Researcher entitle a person to apply for positions that demand higher education of a relevant level according to the job qualification requirements, unless otherwise specified by federal laws.

Levels of higher education in the Russian Federation:
Higher education - Bachelor level
Higher education - Specialist level/Master level
Higher education - training of highly qualified staff.

Persons who obtain the Bachelor qualification (degree) documented by a state-recognized degree certificate (diploma) of the relevant level are entitled to take part in competition for admission to master's educational programmes.

Persons who obtain the Specialist or Master qualification (degree) documented by a state-recognized degree certificate (diploma) of the relevant level are entitled to continue education on a competitive basis in educational programmes aimed at academic staff training.
